Summary

Computer Science undergraduate majoring in Software Engineering, with a deep interest in mobile application development Experienced in building mobile applications hands-on using Flutter and Node.js, combining solid technical understanding with a creative approach to problem-solving. Committed to continuous growth and ready to make a real contribution to projects that create meaningful impact.

Education

Bina Nusantara University – West Jakarta, Indonesia **Aug 2024 – Present**

Bachelor of Computer Science, GPA: 3.35 / 4.00

Skills

- **Hard Skills:** C, Python, ReactJS, Tailwind, Dart, Flutter, Node.js, Express.js, MySQL, PostgreSQL, Typescript.
- **Soft Skills:** Teamwork, Communication, Problem Solving, Time Management.
- **Tools:** Git, Github, VSCode, Antigravity, Eclipse, Jupyter, Figma.

Projects

Mobile Application Genshin Import **Jun 2026**

Final Project – Flutter, Dart, Node.js, Express.js, MySQL

- Designing the UI/UX for the Genshin Import app.
- Design and execute the Backend using Node.js and Express.js.
- Creating a Database using MySQL.
- Convert designs from UI/UX (Figma) to frontend using Flutter and Dart.

Mobile Budgeting Application **Jun 2026**

Personal Project – Flutter, Dart, Node.js, Express.js, PostgreSQL

- Integrated **Gmail API (OAuth 2.0)** to automatically parse financial notification emails from BCA, Mandiri, GoPay, and OVO into structured transactions.
- Implemented **AI-powered transaction parsing** using Anthropic Claude SDK for intelligent categorization.
- Designed relational database schema with **Prisma ORM** supporting transactions, budgets, categories, and sync logs.
- Implemented authentication with **Firebase Auth + JWT** and encrypted OAuth token storage.
- Containerized the application with **Docker.**

Organizational Experience

Bina Nusantara Computer Club – Bina Nusantara University **Jan 2025 – Jun 2025**

Public Relation Activist – Design and External Relation

- Create Copywriting for weekly content and then execute it into a design that is ready to be uploaded on Instagram feeds/stories/reels.
- Create designs for the Company Visit BNCC X HIMTI program to the Apple Developer Academy and document the event and be a time keeper during the event.

Bina Nusantara Computer Club – Bina Nusantara University **Okt 2025 – Okt 2026**

Public Relation Staff – Design and External Relation

- Create Copywriting for weekly content and then execute it into a design that is ready to be uploaded on Instagram feeds/stories/reels.
- Led the Company Visit program as Person in Charge (PIC), managing cross-functional committee coordination and ensuring seamless event execution. Simultaneously acted as mentor for committee members, providing guidance and support throughout the program lifecycle.

Certification

- **ISemantic 2026 | Open Certificate** **Sept 2026**
- **Oracle Database | Open Certificate** **Jul 2025**
